to satisfy the Natural Science and Technology general education requirement.

All students must complete all requirements of general education, including one course (of three or more credits) in each of the following 10 knowledge areas: Arts, Foreign Language and Culture, Formal Reasoning, Global Perspectives, Literature, Natural Science and Technology, Social Science, Western Civilization, Writing Foundations, and Knowledge Applications. Note that courses in these knowledge areas may not double count with each other. Some courses in the tool will list two knowledge areas, in these instances, the course will satisfy one of the two areas listed. For example, ANTH 1000 from Macomb Community College is equivalent to OU's AN 1111 and satisfies either the GP, global perspective or the SS, social science general education category.

Additionally, all students must complete a course satisfying the U.S. Diversity (DIV) requirement. U.S. Diversity may double count with any of the 10 knowledge areas listed above.
