

## End of Module Reflection Essay

Please respond to the prompts below in a short reflection essay (two pages or less!).

### **Introductory Paragraph:**

After 12 weeks of class (!!!), what do you see as the purpose of the Capstone course for your degree in Liberal Arts? Do you feel that, thus far, the course (*all Modules*) have worked to serve that purpose? Explain.

### **Body Paragraph 1:**

Explain what Module 3 was about in your own words. What did you learn? What terms and ideas have stayed with you? What was the most important element of the four weeks? Explain what you have taken away from this part of the course and why.

### **Body Paragraph 2:**

Reflect on the work you have done for this course. What readings, writings and/or discussions did you have to do for this module? What was your experience in doing this type of academic work? What did you like about the work—both in class and out of class? What would you change?

### **Body Paragraph 3:**

How did the work that you completed in Module 3 build on the work you did in Module 1 and Module 2? Explain.

### **Conclusion:**

Think about how you have grown intellectually over the past 12 weeks. Assess yourself as a learner and try to set some goals for either your life after Guttman (congrats!) or your last courses here at Guttman.
