Boom Mic Quick Set-up Guide

1. Fold all 3 legs into their horizontal position. Slide the leg assembly down all the way and tighten screw so leg assembly/base is sturdy.

2. Screw the boom portion of the stand to the base.

3. Fasten the Rode VideoMic to the end of the boom, using the silver music stand adapter screw.

Adjustment features of the Boom Kit:

A – To change the angle of the Boom, loosen T-Nut, then re-tighten
B – To change the length of the Boom, loosen top knob, then re-tighten
C - To change the height of the Stand, loosen center clutch, then re-tighten

(for more information on this Boom Kit, consult the ERL website: www.oakland.edu/erl/equipment)
