

## QR Codes

### How to Create a QR Code

---

Kathleen Doyle OUWB School of Medicine

The code on the left is a link to a video about Audacity.  
The code on the right is a link to a You Tube video about Raptivity.  
The code on the last page is a link to the OUWB SOM EIT website.

Create and/or choose your link to your movie, art work, animation, website or video you would like to link to with the QR code.

Place/make sure the element is in an online environment (on a web page or on a You Tube channel).

Visit the link to the online element. Copy the link.

Visit the website (see below) of the QR code generator: <http://qrcode.kaywa.com/>

---

The screenshot shows the Kaywa QR-Code Generator website. At the top left is the Kaywa logo, a stylized orange 'K' with the text 'KAYWA QR-CODE' below it. At the top right is a green banner with a QR code icon and the text 'GOT A QR CODE READER? DOWNLOAD KAYWA READER'. The main content area is titled 'QR-CODE GENERATOR' and contains a large empty square on the left for the QR code. To the right of this square are several input fields: 'Content type:' with radio buttons for 'URL' (selected), 'Text', 'Phone Number', and 'SMS'; 'Content:' with a text input field containing 'http://'; and 'Size:' with a pull-down menu set to 'L'. Below these fields is a 'Generate!' button. To the right of the 'Generate!' button is a yellow 'Donate' button and logos for MasterCard, VISA, and PayPal. At the bottom of the page, there is a footer with the text 'Version: 1.00 BETA | Non-Commercial Use Only' on the left, 'KAYWA // TECHNOPARKSTRASSE 1 // 8005 ZUERICH // SWITZERLAND // SUPPORT' in the center, and 'ADVERTISEMENT:' on the right.

Paste the URL of your website in the URL space.

Click the radio button to indicate your content type “URL”.

Click “URL” to create the link to the video.

Use the pull-down menu to indicate the size of the QR-Code icon.

Click on the “Generate” radio button and the image of the QR code will be created.

When the code is created you can save the code’s permalink or copy and paste the html code.

Click on the image of the code itself and save it as a .png file to your desktop to be later inserted on a poster, on a business card or into a document.

On your cell phone, download an App like QRAFTER Pro, QR Code Reader and Scanner for iPhone, or AT&T Code Scanner etc..

Using your cell phone and the QR Code reader App you installed, point and shoot a picture of the QR-Code reader icon on the poster or paper

Follow instructions on your phone to view the movie, website, etc.. The movie, etc. will download and play on your phone.
