# Closed Class Registration

If you receive a Close Class error, the class has reached capacity. **If the class has a waitlist, do not follow the steps below. Please register for the waitlist, or select another class.** You may request a closed class override with the academic department of the class if you must register for the class. If the room has reached capacity, an override cannot be authorized. Once the override is entered into the system, you will receive an automated OU email from regservices@oakland.edu confirming the closed class override was entered.
