

STUDENTS

Click, Create and Complete with LiveText

Using LiveText's intuitive web-based interface to create, submit, and complete assignments for courses helps students stay organized and receive the feedback needed to improve learning. Such documents and assignments then become the evidence needed for programs to assess and analyze effectiveness.

Document the College Experience

- Develop customized professional and personal e-Portfolios containing a variety of file types (audio, video, images, etc.) to track the growth and development of specific skill sets
- Author reflective journals, projects, assignments, and other web-based documents for all learning experiences

Academic Social Networking

- Connect to instructors, peers, and assessors for immediate feedback, coaching, mentoring, and team-based collaboration
- Collaborate and communicate with groups for team-based work
- Share work samples and e-Portfolios with potential employers and track their views

Multimedia Integration

Access thousands of standards-based videos, images, and audio resources to enhance LiveText documents, assignments, journals, projects, and lessons with the LiveText Learn360® Membership

File Management Made Easy

Upload, store, and access all your files using the personal File Manager

Up to Five Years!

Student memberships remain active after graduation, giving you the opportunity to use your LiveText e-Portfolios and documents as work samples during the interviewing process
