**Program Type:** Foundational IDS Program

**Description:** The Master of Liberal Studies Program is based on the premise that studying the great ideas of Western civilization leads to increased intellectual awareness and self-fulfillment. Students also explore how these ideas apply to the problems that humans have confronted over the ages, and they consider the moral dimensions of the contemporary issues that they address each day. They read great books to revisit ideas and insights that emerged centuries ago and to examine their relevance to our complex world.
