

Master of Liberal Studies (MLS)

Program Path:

IDS Type: Unrestricted IDS

Program Type: Foundational IDS Program

Description: Liberal Studies helps us to value the world by intergrating aspects of the three schools, arts and letters, natural science, and social science. By doing this, the curriculum helps us to understand why we view ourselves and our surroundings the way that we do. It encourages us to communicate better with those around us. A liberal education gives a greater appreciation for the literature, music, and visual arts that society offers us. It helps us to comprehend the complex social and political programs of the contemporary world and facilitates our ability to make use of today's rapidly evolving technology. (From website.)
