

what did you say
without a word,

we were getting ready to leave

fellow had it coming to him.

What if I did tell him?

it wasn't true.

except the one unutterable fact

—look here,

I couldn't forgive him

It was all very careless

They were careless people,

let other people clean up the mess they had made. . . .

he had made a story about it all his own. I didn't want to hear it

I could still hear
